Dear Kindergarten Parents,

Wow! Our Christmas program was awesome! Mrs. Pruitt and the students did a great job of entertaining us with an evening of holiday music! Thank you to all parents for helping to get your kindergartener there and on time! They were great little elves!

Well, we have reached the end of our first semester in kindergarten! This week we have been busy reviewing and testing. I have been calling individual students to my desk to demonstrate specific skills while the other students have viewed some story and music videos. We have also reviewed the seventeen letters and sounds that have been introduced so far this semester. WOW, we really have been BUSY this week -- probably just like you -- as you get ready for Christmas day!

We learned all about giving and receiving today as we had our class gift exchange. This is a very important lesson for students to learn because they are going to encounter it more and more as they go through life. Each day is filled with choices we have about giving and receiving. Hopefully today will help them think a little more as they give gifts and receive gifts!

Today your child is bringing home a bag with five cotton balls to finish up their Santa Advent calendar. Only five days till Christmas day! I want to wish everyone a very merry Christmas and a blessed new year!

Sincerely,
Mrs. Rissler ☺
